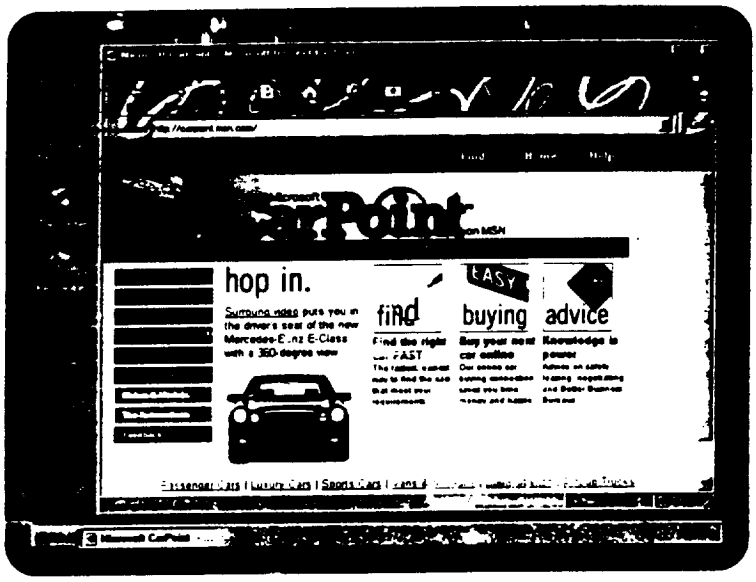
Inbox

The Microsoft Windows Messaging client is a universal inbox for communicating over the Internet; MSN™, The Microsoft Network; and other online services.**

msn.

The Microsoft Network. Built-in access to the online world, including the Internet.**

Performance Features
32-bit, preemptive multitasking
Faster printing and disk/file access
Dial-Up Networking
Windows Explorer enhanced file management tool



Experience the Web. Microsoft Internet Explorer lets you view rich, interactive sites that incorporate online text, graphics, sound, and video.

Cruise the Internet with Windows 95 and Microsoft Internet Explorer.

- High-performance, 32-bit multitasking browser makes your time on the Internet more enjoyable and productive.
- Upgrades of Internet Explorer are downloadable on http://www.microsoft.com/

Utilize today's hottest applications.

- "Designed for Windows 95" applications give you an easy, exciting, and productive desktop.

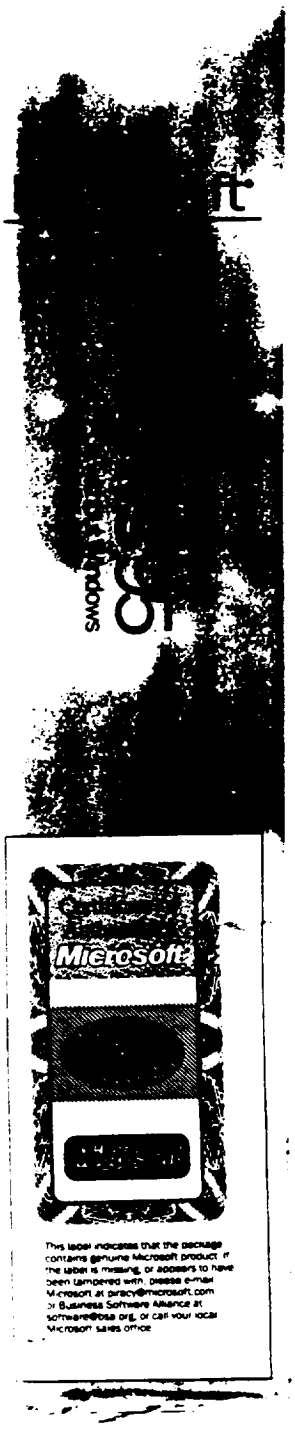
Experience the ultimate game platform.

- With AutoPlay, gaming is as easy as placing a CD in the drive and starting to play.
- Revolutionary DirectX™ technology gives you great graphics, sound, and video, plus superior input device control and multiplayer capability.

Internet Explorer Starter Kit Includes:

- Microsoft Internet Explorer
- 30 days unlimited access via MSN***
- Step-by-step reference card
- *A Beginner's Guide to Microsoft Internet Explorer*

0896 Part No. 94256



You must accept the enclosed License Agreement before you can use this product. If you do not accept the terms of the License Agreement, you should promptly return the product for a refund.

To use Microsoft Windows 95 you need:

- PC with 386DX or higher processor
- 4 MB of memory (8 MB or more recommended)
- 55 MB of available hard-disk space (actual requirements will vary based on features you choose to install)
- 3.5" high-density disk drive
- VGA or higher-resolution graphics card
- Microsoft Mouse or compatible pointing device

Optional:

- Modem/fax modem
- Audio board with speakers or headphones required for sound

Note:

- System requirements for Windows 95-based programs may exceed system requirements described above for Windows 95.
- To get the full benefits of preemptive multitasking, you must exclusively use 32-bit, Windows-based programs such as those products bearing the Designed for Windows 95 logo.

To use Microsoft Internet Explorer Starter Kit; the Microsoft Windows Messaging client; and MSN, The Microsoft Network:

- 8 MB of memory
- 3-25 MB of available hard-disk space
- 14,400 or higher-baud modem

*Retail prices may vary across North America.

**The software to access MSN is a feature of Windows 95. Access to and use of MSN and other online services requires payment of a service fee.

***Available to new MSN members in the 50 United States, the District of Columbia, and Canada only (provided they select MSN as their Internet provider). A credit card is required. Long distance, or toll charges may apply. Offer expires June 30.
