Subject: Microsoft has gotten off too easy!

Hello I would like to voice my displeasure with the feds settlement agreement. It seems to me that Microsoft has indulged in not only anti-trust violations but racketeering as well. Is this a possible avenue of approaching their abuses? I am very saddened that the history I learned in High school and the supposed laws I learned in college don't apply to a giant corporation like Microsoft. I guess if your a big enough corporation you can use dirty, underhanded techniques to dominate the market and become the monopoly you wish. I urge you all to do something about this situation and punish those who break the rules. Unless times have changed so drastically this is not the America that was once advertised.

Sincerely,

William N. Wang, M.D.
