Subject: Microsoft Settlement

As a teacher, taxpayer and member of the USAR for 15+ years, I am not happy with the way the Microsoft suit has been handled. I also am sure this problem has had a negative effect on the value of our young daughter's stock in Microsoft. This court battle must end and it seems to me after reading many pages of the complaint, that a few jelous companies have been trying to destroy the innovative leader that Microsoft has been to the detriment of stockholders and consumers like us. Thank you for your time, Charles Rothera
