Subject: Retired USAF SWBell union memeber & MS Stockholder

Is our government stupid?
Quit screwing with the brightest light in our economy.
If any other nation in the world had Microsoft in
their country they would back them to the limit. Only
because our country allows foreign lobbyists and
because we have so many other multi-national companies
bribing our officials do we have this problem.
Support the USA and our workers and KNOCK IT OFF!
James Poulton
USAF (retired) MSgt
