Subject: MicroSoft Settlement

I just wanted to vent about what is happening with the MicroSoft Settlement. MicroSoft started from nothing and is solely responsible for the PC revolution and a good deal of the other technological advancements we know and enjoy today. It is unfair for this country to penalize success. I think it is great that finally a U.S. company is a world leader and is able to compete with other corporations around the world especially when so many of them are subsidized by their governmants. Please stop playing politics and look at all the good that the company does. Bill Gates donates a lot to charities, pays more than his share in personnel and corporate taxes and provides a lot of jobs. I was disgusted and embarassed to be an American under Clinton but have regained my pride and patriotism under President Bush. Please do the correct and honorable thing and put this endless litigation to rest. The only people that win are the lawyers.

Thank you,
Bill Klueber
