Subject: Microsoft Settlement

Dear Judge,

I don't think that the PFJ is the correct solution to this problem. Microsoft is a fabulous company, however, they are in direct violation to the law. They are guilty of some very serious anti-competitive violations. The PFJ does not provide an effective enforcement mechanism. What microsoft has done to many companies is very wrong and needs to be stopped. It is not fair. The world needs competition.

Thanks

Lindsay Ray 213-764-3843
