To get the computer you've always wanted, click here.

Start

Unlock the potential of your computer with the Microsoft® Windows® 95 operating system, and get the Web the way you want it with Microsoft Internet Explorer 4.0.

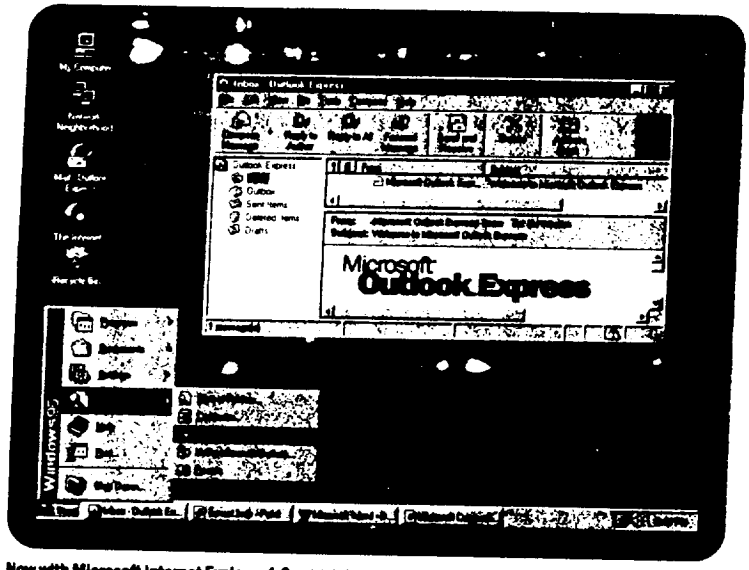
Plug and Play

Plug and Play technology *automatically* installs compatible CD-ROM drives, sound cards, and more.

Get the Web the way you want it with Microsoft Internet Explorer 4.0 inside.

MSN™
The Microsoft Network

The Microsoft Network. Built-in access to the online world, including the Internet.*



Now with Microsoft Internet Explorer 4.0, which includes Outlook™ Express so you can easily communicate on the Internet with e-mail.

Performance Features
32-bit, preemptive multitasking
Faster printing and disk/file access
Dial-Up Networking
Windows Explorer enhanced file management tool

Cruise the Internet with Windows 95 and Microsoft Internet Explorer.

- High-performance, 32-bit multitasking browser makes your time on the Internet more enjoyable and productive.
- Upgrades of Internet Explorer are downloadable on http://www.microsoft.com/

Utilize today's hottest applications.

- Applications with the "Designed for Windows NT® and Windows 95" logo give you an easy, exciting, and productive desktop.

Experience the ultimate game platform.

- With AutoPlay, gaming is as easy as placing a CD in the drive and starting to play.
- Revolutionary DirectX® technology gives you great graphics, sound, and video, plus superior input device control and multiplayer capability.

Designed for Microsoft® Windows NT® Windows® 95

For best performance, look for products that show the Designed for Windows NT and Windows 95 logo. Products with this logo have been thoroughly tested on Windows 95 and Windows NT. This logo means that applications offer easy install and complete uninstall, hardware products support Plug and Play, and that PCs take full advantage of the latest Windows technologies.

0997 Part No. X03-44516

You must accept the enclosed License Agreements before you can use this product. If you do not accept the terms of the License Agreements, you should promptly return the product for a refund.

System requirements

To use Microsoft Windows 95, you need:

- PC with 386DX or higher processor
- MS-DOS® operating system version 3.31 or later and Microsoft Windows version 3.0 or later or OS/2 version 2.0 or later
- 4 MB of RAM (8 MB or more recommended)
- 45 MB of available hard-disk space (actual requirements will vary based on features you choose to install)
- CD-ROM drive
- VGA or higher-resolution graphics card
- Microsoft Mouse or compatible pointing device
- For sound: Audio board with speakers or headphones

Notes:

- System requirements for Windows 95-based programs may exceed system requirements described above for Windows 95.
- To get the full benefits of preemptive multitasking, you must exclusively use 32-bit, Windows-based programs.

To use Microsoft Internet Explorer 4.0:

- 486/66 MHz or higher processor
- 8 MB of RAM
- 16 MB of RAM with Active Desktop™
- 46-70 MB of available hard-disk space
- 14,400 or higher-baud modem

To use MSN™, The Microsoft Network:

- Internet Explorer
- 16 MB of RAM
- 25-42 MB of additional hard-disk space

*The software to access MSN is a feature of Windows 95. Access to and use of MSN and other online services require payment of a separate fee. MSN is not available in all countries.
