Subject: Justice Failure - Microsoft Wins

Hi,

My name is Phil Obal, President of IDII, and a software designer for over 20 years.

I believe that Microsoft is getting off very, very easy. It took away large market share from Netscape's internet browser - by illegal activities - and what did you do?

Microsoft is just a giant and will continue on being a larger giant. You did not slap and punish it hard enough at all.

I am extremely disappointed. Justice was -not- done.

Sincerely,

Phil Obal
President
