Subject: Microsoft Settlement

To Whom it May Concern:

I think this case was without merit from the very beginning. Unfortunately, those various competitors that Microsoft fought so hard against in our free market system and beat, hands down, had no other alternative than to have the government try to stop them. Of course, they dislike the proposed settlement too. Big surprise!

Microsoft and the entire technology industry in this country had suffered immeasurably and it's time to put this nonsense behind us. Stop wasting taxpayer money. Settle the case and get it over with.

William Kennedy
