**Subject:** Microsoft Settlement

To Whom It May Concern:

Microsoft's antitrust violations mean they have done a wrong action. The solution is to make sure it never happens again. I find it puzzling how justice is being served by having Microsoft implant itself in our schools. This further leads to their dominance does it not?

Schools will soon be dependent on Microsoft for everything and then when 1 billion dollars runs out I'm sure they will be so heavily dependent on MS that they will have no other choice than to buy MS products. Microsoft will gain more than it could possibly lose.

MS has turned into a monopolistic company and must be stopped, not encouraged. The California Attorney General is right in not taking the proposed MS settlement, he should not be forced to either.

Sincerely

Jeffrey Tanaka
