Subject: Please STOP MICROSOFT.

To Whom It May Concern,

One of the first things i learnt in the IT industry is that "competition breeds excellence".

There is no excellence in Microsoft, they have taken other companies development, made there own implementation of it and made sure that it only works correctly on their platforms.

Punishment for Microsoft should be that the firm is broken up into 4 divisions, Server (Windows Server, Advanced Server etc) , Desktop (windows NT Workstation , Professional), Office Suites (Microsoft Money Office 2000 etc) and Back Office Products (Exchange, SQL, ISA server, etc).
ABSOLUTLEY NO INTERACTION Between these companies can be allowed.

Please end the Monopoly

Yours sincerely
