To whom ever is in charge of making these deal with Microsoft.

I think you are letting Microsoft off the hook way too easily. I am ashamed at my government's actions that let a company destroy so much innovation and lie, cheat and steal to get control of the market.

So I hope you understand that your actions of allowing Microsoft to get away with these actions only set a precedent for all companies in the future to get away this crap and manipulation.

Punish Microsoft for what they have done, do you think they will learn with a slap on the wrist?

I thought our elected officials were smarter than that.

Please make the right decisions and bring justice to this industry. Punish Microsoft and make them pay 1 billion cash, not in software that furthers their monopoly.

Cheers
