Hello DOJ Antitrust Division.

Based on what I'm hearing in the news about Microsoft's proposed settlement remedies, it is my opinion that any settlement that you reach with Microsoft is not going to be any more meaningful than Chamberlin getting Hitler to sign an agreement committing Hitler to be a really fun guy from then on.

The key to resolving this issue is to somehow impress upon Mr. Gates that the "game" is over.

Thank you for at least listening.

M. Clark
