Subject: Microsoft Settlement

Hello,

I just wanted to voice my support of the Microsoft settlement. I do believe that they were unfairly targeted by the government in the first place, but since they agreed to this settlement it should be honored! Then the whiners and complainers from both the other software companies and the Government (who really deserve none of Microsoft's money.. they already pay their taxes) should get out of it and leave them alone. Hopefully they can still succeed even after their unfair and I believe unlawful persecution.

Let their settlement stand.

GL Holmlund
