It's time to stop the litigation against Microsoft and get on with the important things in our country, like getting rid of those forces that want to topple our way of life and government. It's obvious to me that those who want to prolong this debacle are just looking for a big "pay check" and don't give a darn about the rest of the citizens.

We know you're powerful, so you don't need to prove it by continuing this maddening attack on private industry.
