I feel Microsoft as a company has gone through enough. Now it is time for the Government and States to settle this case and let Bill Gates get back to business. 911 proved to the world that as a people we can come together regardless of our differences and get the job done, now is the time to do so in this case. Lets think of all the contributions Microsoft has made to the economy and the computing industry and let these guys and gals get back to work and make the USA even stronger.
