Subject: Microsoft Settlement

I would hope that this is the end to this antitrust suit for all parties concerned. I feel that a lot of time and a lot of the taxpayers money has been spent unwisely supporting this antitrust suit to begin with. I also feel that the Clinton Administration brought this suit only to repay favors to other corporations since their products didn't measure up to what we the public want, so this was their way of trying to slow Microsoft Corporation so they could regain some market share.

I also feel the Clinton Administration has hurt not only Microsoft Corporation but the public at large for the tax revenues lost just to bring this suit, and anyone that has a 401k account has been affected.

In closing I would like to comment on the nine states in this suit. I don't see that they should be even considered in this antitrust.

Sincerely yours
Robert Burns
