Subject: Microsoft Settlement

Gentlemen:

My government spent more money prosecuting Microsoft during the Clinton presidency than it spent on anti-terror programs. It spent more on prosecuting Microsoft than it spent equipping our military to conduct a two theater operation. It spent more prosecuting Microsoft than it did on increased research for an AIDS solution.

My counsel to you is simple: STOP IT! I'm mad at you and I vote. And I'll vote against anyone who does not support and vote for an immediate end and settlement to this foolishness.

Don't forget about me, it's my money that pays the bills and I'm not going to forget about you.

William K. Dyer
