My personal feelings in regards to the Microsoft settlement, is that enough is enough!! The settlement that has been made is agreeable to most and that should be sufficient.

I, for one, am sick and tired of my tax dollars being squandered on merry little trifles while people in the U.S. are homeless & hungry. We pay taxes & then are supposed to help these causes with our donations!!

Leave well enough alone!! Put our tax dollars to work for us constructively & STOP spending your time & our money trying to tear down!!!!

Just remember, we not only pay taxes.....WE VOTE!! With the new awareness in America today, the goverment better hold on tight when it comes time for the next election!!!!

You have spent millions so far getting to the settlement you now have w/ Microsoft, leave it alone.....it should be a done deal!!

Sincerely,

LouElla B. Williams
