**Subject:** Microsoft Settlement

Any settlement which allows Microsoft to pay through the free use of its products is not a penalty at all. It is a reward. Software does not have a cost like a physical product and the more copies that are in use allow Microsoft to continue its monopolistic dominance in many many markets. Penalties should be paid with CASH. It is the only stick which will get Microsoft's attention. Don't let them dupe you into anything else.

These are my views only and do not represent my employer.
