Subject: Microsoft settlement

It is time to settle this nonsense the government has imposed upon us by constantly attacking Microsoft. Am I the only citizen who noticed that with the first court actions against Microsoft, the stock market nosedived and has never come back?

Competition is just that - competition. Instead of whining about Microsoft, why don't these equally wealthy competitors go do something better than Microsoft?

If we ever want this country back on it's feet - and as a business owner - I certainly do, then we need to settle and end thisSurely, we have more to do with our time than attack t he major companies in this country - which, if you haven't noticed - are having enough problems.

With this settlement, I believe our finanacial markets will be revived.
