Hi Doj

Please settle the microsoft litigation. Enough time and expense has been taken on this matter.

I feel that turning this (the settlement) into another "OJ" type extraviganza will happen if many people have their way. For some reason We as Americans tend to not just resolve a matter, but bury it also. This is no good for our country or our economy.

It is time to accept the settlement now . Osama is our enemy, not Bill Gates.

sincerely, jack clayton/jcbogg@aol.com
