Subject: Microsoft Settlement

I am writing to voice my opposition to the proposed settlement and my support of the "hold out states". The settlement would be a reward for Microsoft, not a remedy, by imposing "the Microsoft way" on America's children. Education is one arena where Microsoft does not dominate, but this settlement would expand their monopoly power into a market where it did not previously exist. This is bad for all of Microsoft's competitors, such as Apple and RedHat, and the court should not be in the business of putting Microsoft's competitors out of business. Please to not sacrifice our children to the evil empire.

Regards,
