Subject: MICROSOFT SETTLEMENT

Judge;

As a long-time banker to many software industry clients, I can personally attest to the pernicious power and influence of Microsoft in this, one of America's most important industries. No company in my lifetime has exerted such a strong and frequently negative influence over its industry as Microsoft has done over the past 10 years.

I will not be giving you my full name, as I fear the wrath of the folks up in Redmond. But I will ask you to look carefully at the facts in this case. They will speak for themselves.

Thank you.

E. J.
San Francisco, CA
