Subject: Microsoft Settlement

The "settlement" is terrible. MS is a monopoly, has been found to have violated federal law, and should be PUNISHED. The "settlement" does not amount to punishment, and in fact appears to be more of a business dealing between two partners, rather than a resolution to a criminal proceeding.

It is shameful that this company is allowed to buy it's way out of everything. It is shameful that this monopoly has struck a deal to advertise its wares in United States Post Office storefronts.
