Subject: Microsoft Settlement

Greetings,

I am writing to express my dissatisfaction with the proposed Microsoft AntiTrust settlement. Microsoft is a convicted monopolist who deserves to be punished. They have used their monopoly in certain markets (operating system, web browser, office productivity suite) to extend their grasp into other markets (internet services, video game consoles).

Microsoft has demonstrated that they do not intend to stop this behavior. I ask that you reconsider the proposed settlement for one that better protects the public.

Thank you,

Kerry Payne
