Subject: Microsoft Settlement

I beg you to reconsider this settlement. It is a VERY bad idea.

The world is watching this, and it's outcome will not only reflect on our justice system, and the integrity of our government, but will send the message to all people, both young and old, that our government does not exist to serve it's citizens, but only to defend the wealth of corporate monopolies. Even in these darks times, it becomes more and more obvious each day.

I beg off all of you to reconsider this.

Thankyou for your time,
Concerned U.S. Citizen.
