Subject: Microsoft settlement

Dear Sirs:

I am a Republican, voted for G. W. I like a lot of what he has done since being in office.

However the Justice department seems to be in another camp. First the Microsoft debacle and then Enron and allowing them to shred documents even up to last week.

Software was my field before retiring and I can see what Microsoft has done to competition maybe better than some others. Anybody can see how arrogantly monopolistic they are, just from their public behavior. Please start doing what you are appointed to do. Take care of our business environment. Enforce the law! This is not a difficult situation to analyze, especially for good, honest, Republican lawyers.

The proposal that they donate their software to schools is so much of an 'in your face' gesture that anyone should be offended.

If anyone has taken the trouble to read this, thank you.

Regards, Bob Stormberg
