Subject: Microsoft Settlement

The proposed Microsoft Settlement in the US vs. Microsoft Corporation suit is wholly unacceptable. In many ways it will actually HELP Microsoft maintain its monopoly. It is painfully obvious (as any annoyed Windows user knows) that Microsoft is a monopoly and its lack of competition is nothing but bad for the consumer. Microsoft has used its status to leverage company after company out of existence. It is time to put a stop to it and the proposed settlement will do no such thing. Please reject the settlement.
