First of all I am disgusted that the United States Government would seek to persue this case in the first place. Secondly I feel that if the settlement is acceptable to Microsoft then accept it and don t bother screwing around with a company that has done more to create jobs in this country and decent paying ones at that then the government could ever afford to do or have the intelligence to do. By the way what is the price difference between what was spent going after Microsoft vs what was spent going after terrorists?
