Subject: Microsoft Settlement

--

I don't think the proposed settlement has enough teeth to do any good. Microsoft has a clear history of circumventing, undermining and lying. It needs to face a significant penalty and damages if more law-abiding companies are to be able to have a fair chance of competing against them. The cost of Microsoft abuses to other Americans who are law-abiding is very high. The proposed settlement is a cave-in by the DOJ which smacks of political or other interference.
