Subject: DOJ Microsoft Crusade

Department of Justice:

Please stop this unneeded and tax spending dollar crusade against Microsoft. Supposedly the government has reached an agreement with Microsoft settling the ludicrous charges against them. Settle it. Bill Clinton who couldn't shake them down is out of office. This case is an affront to the few corporations with integrity left in business in the United States. Settlement time has come. Please do what your paid to do. Investigate, reach an accord, settle it. Spend your time worrying about the Taliban Johns' of the world, prosecute them as you failed to do with Jane Fonda. Investigate those corporations such as ENRON whose CEO and other high officials who are alleged to have bilked their small shareholders and employees IRA holdings out of a billion dollars in the past year. That's where your efforts need to be directed.

GOD BLESS AMERICA
