**Subject:** Anti - Trust Case

United States of America  
Department Of Justice:

The purpose of this message is to express my strong support for Microsoft, and urge appropriate steps be taken to achieve fast closeure of all pending Anti-Trust cases against Microsoft. This should be accomplished without further restrictions, actions or changes in the structure of the company.

The corrective actions already taken by your department, along with world wide competition and fast changing technology, will quickly eliminate any still existing problems. It makes absolutely no sense to damage an American Corporation to solve correctable problems between American Companies. It can have a very negative impact on the American economy and it opens a much too wide door to foreign competitors.

Thank you,

M. J. Jensen
