Subject: Microsoft Settlement

Hello,

I have reviewed much of the proposed DOJ settlement with Microsoft and I must say that it is not adequate. I lack the time to go through all the points I have problems with, however I am sure many others will point them out. I can only say that I hope that my government representatives will uphold this nations belief of a government "for the people, by the people" and not "for the corporations, by the lobbyists."

Please do not approve any settlement without further review and stronger enforcement.

Thank you,
