I wish you would stop harrassing Microsoft. I use their products because they are the best value for the money. If you ask me, Apple is a monopoly - you can only use their software on their hardware. But if apple was so good, everyone would use it. Anyway, I think my Justice department has better things to do than try to bring down microsoft. God bless america, you can build a company from nothing to something, and then your enemies can whine to the government to bring you down. Netscape lost out by having a poor product. Oh well.....
