Subject: Microsoft Settlement

To whom it may concern:

I would like to make my voice heard in the Microsoft Antitrust settlement. I do not believe that the current settlement will discourage Microsoft in any way from continuing the practices that have led to the trial. I believe that whatever settlement is finally approved needs to make certain that not only is Microsoft punished for their years of law breaking, but also that the settlement puts into place avenues for competitors to make inroads that will add competition to the market.
