Subject: Microsoft Settlement

We strongly believe that the settlement of the suits against Microsoft be accepted by all parties NOW!!! We felt, that in the first place, the suit was improper. Further suits against Microsoft by the states are an improper use of taxpayers money. Users of software will be adversely affected. Microsoft puts out an outstanding product. Executives of Microsoft do not take exorbitant salaries as is happening in many other corporations. Our economy can not stand this continued the abuse of frivolous lawsuits.

Thanks

Ira & Wilma Green
