Subject: Microsoftsettlement

To whom it may concern,

As a consumer of microsoft products I think they should be lauded -- not persecuted -- for what they have done. Please leave microsoft alone. They should not be punished for the good job they have done.

Our country did not fight Communism in Europe and Asia only to bring it here in this antitrust; read harassment, case against Microsoft and its brilliant, humanitarian creator, Bill Gates.

Please praise microsoft instead of attacking them.

Bradley Sidman
