the way i see what the settlement, your just giveing Microsoft more power than before. They get to stay the way they are, and now as there punishment they have you donate computer using there software and to school and give support. Isn't the whole case about how Microsoft became a Monopoliy. And now your giving them a chance to make it bigger. What i see happening is Microsoft getting bigger with the help of the US goverment. And how can we turst are goverment when they help Monopoliys.
