US Department Of Justice,

I'm writing to offer support for Microsoft's position in the current Antitrust scenario against them. I feel that the government should NOT take adverse action against Microsoft. The marketplace will do that if the company deserves it. Other parties against Microsoft in the business realm stand to gain financially against Microsoft if the software giant gets penalized. They would therefore offer tons of reasons why Microsoft should be penalized -- of course.

Please leave business matters of this sort to the marketplace and consumers instead of lawyers eager for their fees and jealous business rivals holding daggers behind them.

Thank you.
