We as Americans need to quit spending our time and valuable economic resources and focus on the real problems. Corporations like Microsoft keep America s economy running the war is not against Microsoft who provides job to thousands of Americans and helps to the financial health of our nation. Microsoft as a leading technology improvement corporation should be an example to follow restraining it will cause a regression of the high tech industry. I as a consumer and concerned citizen would like to see a little bit of wisdom in my elected representatives if they could do a better job by focusing on real problems and keep America rolling.
