### **Cybercrimes Definition**

- Cybercrimes against individuals are defined as criminal offenses that involve the use of a computer to harass, threaten, stalk, extort, coerce, cause fear to, or intimidate an individual, or without consent distribute intimate images of an adult, except that use of a computer need not be an element of the offense. (See 34 U.S.C. § 30107(a)(2) and § 30108(a)(1)).
- The term computer includes a computer network and an interactive electronic device.
- Cybercrimes against individuals *do not* include the use of a computer to cause harm to a commercial entity, government agency or nonnatural person.

- The NRCC program has 3 statutory purpose areas.
- Note: For the FY 2024 solicitation, OVW will not be implementing purpose area 3 of the statute, which authorizes a recipient to conduct research.
- Applicants should not address purpose area 3 in their applications.
